

# PENN STATE CIVIL AND ENVIRONMENTAL ENGINEERING

## Teaching Faculty Position in Construction Engineering and Management

The Department of Civil and Environmental Engineering (CEE) at The Pennsylvania State University invites applications for a full time, non-tenure line, teaching faculty position in the area of construction engineering and management (CEM). We seek an enthusiastic educator who will use a mix of traditional and innovative approaches, such as project-based and online learning, to deliver course materials. The successful candidate will be engaged in program development and teach a variety of courses related to project management, project financing, planning and scheduling, cost engineering, materials and equipment, safety, and design. The successful candidate also will provide service to the department, such as advising to student organizations, seeking growth opportunities for the CEM program, and fostering relationships with CEM stakeholder companies.

This position will be filled at the level of a teaching professor or an assistant/associate teaching professor. For the level of teaching professor, applicants should hold a terminal degree in civil engineering or a related field. For the level of assistant or associate teaching professor, applicants must have a master's degree (or its equivalent) or a terminal degree in civil engineering or a related field. Applicants should preferably have construction-related experience. In addition, candidates should be, or plan to be, licensed as a professional engineer (P.E.) and have demonstrated teaching experience through academic courses, short courses, professional conference presentations, or related activities. Please see [policy.psu.edu/policies/ac21](http://policy.psu.edu/policies/ac21) for definition of academic ranks and promotional opportunities for non-tenure line faculty.

Applications should include a cover letter, curriculum vitae, statement of teaching interests, and contact information for three references. For full consideration, applications should

be received no later than December 17, 2021. Apply to job REQ\_0000014983 at [psu.jobs](http://psu.jobs). Employment will require successful completion of background check(s) in accordance with University policies.

The CEE Department is a vibrant and dynamic unit with 35 faculty members, 17 research scientists, annual research expenditures of \$18M, and U.S. News and World Report undergraduate program rankings of 13th for civil engineering and 16th for environmental engineering. Department faculty members have received prestigious honors including many professional society awards, 12 NSF CAREER awards, and one NAE membership. Excellent opportunities exist for candidates to interact with faculty on collaborative projects, including teaching, research, and service. Penn State is one of the nation's leading land grant public universities with research expenditures exceeding \$900 million annually. Please see [cee.psu.edu](http://cee.psu.edu) for additional information about the department.

State College, Pennsylvania, has been voted repeatedly as one of the most desirable and safest places to live in the United States. For more information about safety at Penn State and to review the Annual Security Report which contains information about crime statistics and other safety and security matters, please go to [police.psu.edu/clery](http://police.psu.edu/clery), which will also provide details on how to request a hard copy of the Annual Security Report.

Penn State is an equal opportunity, affirmative action employer, and is committed to providing employment opportunities to all qualified applicants without regard to race, color, religion, age, sex, sexual orientation, gender identity, national origin, disability, or protected veteran status.
